“El Pedral, Día de Campo y Pingüinos”

Regular daily Excursion (from September/15 to April/15)

OUR SERVICES

Setting off from Puerto Madryn and after traveling 70 km along the Patagonian steppe, we will reach the south end of the Golfo Nuevo mouth and find the lighthouse at Punta Ninfas, a valuable reference for sailors coming into the gulf. Along the beaches bordering Punta Ninfas, we might be able to watch sea lions and elephant seals in their rookeries.

Afterwards, we will head towards the house of El Pedral, an original Patagonian farmhouse built at the beginning of 20th century. Its materials were brought in ships from Europe, which disembarked on the coasts of the proper farm.

After listening the story of the house, we will go to the Magellanic penguins' colony. A guide tour among its nests will enable you to know much more about these curious animals. In summer, we recommend bringing cap and sunglasses, as well as a bottle of water.

At midday, you will be able to enjoy a lamb roasted on a spit along with a variety of salads, desserts and coffee. Lunch includes drinks and house wine.

Later, after we had lunch you can enjoy de pool, as well as walk in the surroundings of the house or enjoy a tasty cup of tea or coffee, accompanied with a delicious Welsh cake, before we finally set off our way back.
